Abdelhamid BENSEGUENI

FULL STACK DEVELOPER

PROFESSIONAL PROFILE

I immersed myself in web development training, honing skills in front-end development, JavaScript, React, and project management. Guided by experienced mentors, I'm poised to make valuable contributions to your projects.

EDUCATION

- **B.Sc. JavaScript React Developer**
OpenClassrooms 2023
- **M.Sc. in Petroleum Engineering**
University of Pau et Pays de l'Adour 2015
- **B.Sc. in Process Engineering**
University of Paul Cezanne 2012

WORK EXPERIENCE

Land surveyor

January 2019 - May 2021

Managed a land surveying team across multiple locations, optimizing operations and coordination. Oversaw executive leadership, training, and media relations specific to land surveying projects. Developed and implemented strategic initiatives to drive efficiency, accuracy, and client satisfaction. Revitalized underperforming departments to enhance productivity and quality of surveying deliverables. Cultivated a culture of transparency, accountability, and continuous improvement within the land surveying organization.

Director of Operations

January 2017 - December 2018

Effectively directed operations in an industrial waste treatment facility, ensuring seamless functioning and regulatory compliance. Oversaw executive leadership, training, and external stakeholder management. Developed and executed comprehensive strategies to optimize waste treatment processes, improve operational efficiency, and achieve environmental sustainability goals. Spearheaded departmental restructuring to enhance productivity and streamline operations. Fostered a culture of safety, quality, and continuous improvement within the facility.
